We are thrilled to announce that Meet PAT won the award for Excellence in Sustainability in the Business NSW, Murray-Riverina, Business Awards on Friday night. A category which means so much to Meet PAT and we congratulate all the finalists/award winners of the night.

It is our belief is that Sustainability and the environment is the future of business growth and an important measure of business success. We are proud that currently, Meet PAT have dedicated staff developing and implementing our sustainability goals. For a smaller organisation, this is a big commitment in our labour force. However, we believe it is what our kids and the next generation will look back on us with pride, knowing that we aspired to have the highest standards in social and environmental performance within Meet PAT.
